# Casa Comalat

## THE SPACE

A modernist jewel in Barcelona — and the home of the WELLING experience.

A space designed for silence, beauty, and presence.

A premium wellbeing space inside a Barcelona modernist gem — where massage becomes ritual.

Casa Comalat is more than a location: it is the stage for the experience.

Avinguda Diagonal, 442 · Barcelona

Detail from Casa Comalat · Modernist ornament.

THE FOUNDER

A CONVERSATION WITH XAVIER MELER

## Founder & Therapist

WELLING is built on a simple idea:

wellbeing is not a luxury—it is structure.

We work with the body like an architecture: foundations, alignment, flow.

Each session is designed to create stability in the nervous system, release deep tension, and restore a sense of internal space.

## METHOD

Clear diagnosis · precise hands · depth  
Tissue, fascia and breath, guided by attentive listening.

## RITUALS

Immersive experiences · author-led · 120'

## SESSIONS

Targeted focus · recovery · nervous system regulation.

## HOTELS & COMPANIES

Discreet service · silent setup · tailored

## WELLING — Wellness for Living · ATMOS

---

A quiet, refined space created to hold the experience: essential, warm, and minimal.

A place where the body can finally let go.

ATMOS is the heart of WELLING: a carefully curated atmosphere where every detail supports deep presence.

A clean, warm environment where time slows down and your system can reset.

ATMOS is not a "massage room." It's an inner architecture: light, temperature, textures, sound, rhythm — everything is intentional.

A place built for deep sessions: therapeutic work, nervous system regulation, and true recovery.

# Ritual 01 · Living Architecture Experience

Serene. Precise. Transformative.

---

## DESCRIPTION

---

Modernism, light and silence.

Deep and elegant work that releases tension and restores lightness.

An author ritual that understands the body as architecture:

structure, rhythm and presence.

We begin with a brief body reading and a breath adjustment to enter calm and precision. Then, we work in layers (tissue + fascia), releasing tensions that sustain posture and fatigue.

Extended time does not seek "more force," but more real change: space, mobility, and an internal sense of order.

Slow, integrative closing to anchor the work.

## INTENCIÓN

Lower tension, organise structure, and restore presence.

## IDEAL FOR

Sustained stress · a loaded body · need for a reset · high demand.

## DURATION — PRICE

120'    180 €

# Ritual 02 · ATMOS Reset Experience

Calm. Clarity. Reset.

---

## DESCRIPTION

---

Designed for days of mental load, insomnia, or emotional saturation.

We begin with broad, steady contact to signal safety; then progressive release of diaphragm, spine, and shoulder girdle with gentle myofascial work and conscious breathing.

The goal is to reorganise nervous-system tone and restore a sense of internal rest — not just momentary relaxation.

Closing in stillness to integrate and return to your centre.

## INTENTION

Regulate the nervous system and restore real calm — without rush.

## IDEAL FOR

Racing mind · insomnia · fatigue · mental overload · high stress.

## DURATION — PRICE

120'    180 €

# Ritual 03 · Deep Structure Experience

Deep. Technical. Releasing.

---

## DESCRIPTION

---

An author ritual for rooted tension and postural patterns.

We read the tissue (fascia, chains, densities) and prioritise few areas with maximum precision: sustained depth, myofascial release, and mobilisations that allow yielding without defence.

It is structural work, but with calm: to recover range, lightness, and quiet strength.

Closing with long manoeuvres that stabilise and organise the body.

Depth. Order. Lightness.

## INTENTION

Release deep layers and recover mobility with precision and rhythm.

## IDEAL FOR

Contractures · postural stiffness · loaded back/hips · chronic tension.

## DURATION — PRICE

120'    180 €

# Ritual 04 · Atlas–Axis Experience

Silence. Space. Rest

---

## DESCRIPTION

---

Cervical–cranial approach to unload where invisible load accumulates.

Fine work on occipital area, atlas–axis, jaw, and anterior neck chains to improve rest, tension headaches, or bruxism.

Pressure is selective; rhythm is slow and exact. We integrate with opening the breath and releasing pectoral and diaphragm so the head can return to calm.

Closing with cranial holding and deep integration.

## INTENTION

Release neck, head and jaw —and restore calm, openness and rest.

## IDEAL FOR

Bruxism · headaches · cervical tension · jaw tension.

## DURATION — PRICE

120'    180 €

# Welling Journeys

## NATURE & PRESENCE

### Journey 01 · Forest Reset Journey

180'

Private 360 € · Duo 520 € · Micro-group (3-5) 190 €/person  
Group (6-10) 150 €/person.

This Journey is built in two stages: urban nature  
• ATMOS integration.

An immersion route in urban nature to lower internal noise and recover stability. We walk from Casa Comalat to the park to enter the forest rhythm: breathing, senses and micro-pauses that unload jaw, neck and diaphragm, restoring breathing openness.

To close, we return to ATMOS and do a silent WELLING integration: guided breathing, unloading supports, and rhythmic therapeutic percussion (rocking, tapping) applied in a focal way. A real nervous-system reset.

### Journey 02 · Forest Bathing — Presence & Clarity

180'

Private 360 € · Duo 520 € · Micro-group (3-5) 190 €/person  
Group (6-10) 150 €/person.

Slow, precise walk to organise the body and clear the mind: conscious steps, changes of support, and simple stability exercises on real terrain (no fitness, no yoga).

The intention is to release postural tension, restore full breath, and lower mental overload.

The experience settles in ATMOS with a deep integration based on temperature, gravity, breathing and directed pressure.

On mats or table, we guide a gentle connective-tissue release with discreet tools and a rhythmic close (rocking and tapping) accompanied by minimal sound to anchor the change.

Body "ordered". Clear mind.

# Meditation & Mindfulness

LEAVE THE NOISE OUTSIDE. RETURN TO YOURSELF.

Guided practices to train attention, breathing and calm — without performance.

## Guided Meditation · Presence

60'

100 € + 75 € per additional person..

Clear guidance to return to the body: breath, senses, thought and emotion without judgment. Final feeling: a wider mind, a quieter body.

## Conscious Breathing · Breathwork

60'

100 € + 75 € per additional person.

Directed breathing to regulate the nervous system: oxygenation, stress discharge and focus.

Recommended to combine with a meditation.

## Deep Rest · Guided Rest

60'

100 € + 75 € per additional person.

Lying practice to enter deep rest: progressive relaxation + attention to breath + integrative closing. Ideal for mental fatigue.

## Mindful Walk

60'

100 € + 75 € per additional person.

Slow, present walking: rhythm, posture, breath and gaze.

For people with a racing mind who need to slow down.

Xavier is an excellent holistic therapist. Not only are the massages outstanding,

but his warmth helps you relax, enjoy the moment, feel accompanied,

and leave the session renewed. I've known him for years and I do not plan to change professional.
